We ship by B.&O., N.Y.C. or Penna. Railroads — by Truck Line Freight or Railway Express. We suggest that if possible you call for bulky shipments to speed delivery and conserve packing materials. We do not guarantee that we will be able to pack all orders of bulky material but the situation is much improved. Truck orders delivered by special arrangement.

TERMS

This list cancels all previous lists and due to shortages and labor conditions prices are subject to change without notice.

Thirty days net to parties of approved credit established in advance of shipment. Discounts for cash in advance of shipment 3%; 2% for payment within 10 days; 30 days net. C.O.D. orders must be accompanied by $\frac{1}{4}$ cash deposit. Boxing and baling are charged for at near cost. Car loads and truck loads packed free. When cash accompanies order, boxing will be billed to those of established credit, otherwise boxing charges will be sent C.O.D. with shipment.

Five or more plants will be charged at the ten rate, thirty or more at the 100 rate. Less than 5 will be charged 25% higher than the 10 rate. Any possible claims for rejection or deficiency must be made within 5 days after arrival of stock. All shipments travel at cost and risk of the purchaser.

LINING OUT SHRUBS

LINING OUT EVERGREENS

Our pot grown evergreens are plunged in sand outside in frames and are therefore well hardened.

1 yr. refers to a growing season.

2 yr. means plants were outside two seasons.

We use 2¼" rose pots for most items.

EVERGREEN GRAFTS

The following list of varieties we graft each year. Others may be added if desired, if scions are available or furnished. We have stock plants of many varieties not listed below.

Junipers are grafted upon Juniper Virginiana understocks only. Other varieties are on related understocks only. We use 2½" deep rose pots for most understocks.

Euonymus Burtoni

This is a compact growing form of Euonymus Europaeus grown from cuttings. It never exceeds six feet in height with us and bears an amazingly heavy and dependable crop of orange red fruits each fall. The deep green foliage retains its vigor later than most other shrubs and for that reason alone is very outstanding. Never offered for sale before.

GLOBE BARBERRY

(Plant Patent No. 189)

(*Berberis thunbergi nana*)

See Prof. Chadwick's Select List of Shrubs

Ordinary Barberry

Berberis nana
(Natural Shape)

This is a low, slow growing and compact sport of the well known hardy Barberry. It's compact, tight growth makes a trim appearance without shearing. This plant never gets out of hand as do common Barberry plants and the foliage is better than that of the parent and it has the same kind and color fruits. Its appearance is somewhat like that of a dwarf Holly or Azalea. It is undoubtedly the best permanently dwarf deciduous plant for low hedges and borders because of its dwarfness, hardiness and general permanence.

This is the first time this plant has been offered for sale. Due to its slow growth the purchaser is assured of maintenance of the present price schedule. It is suggested that as large sizes cannot well be shipped these grades be planted out for growth on as specimens
